

META GOLD

Destined For Excellence

What is our story:

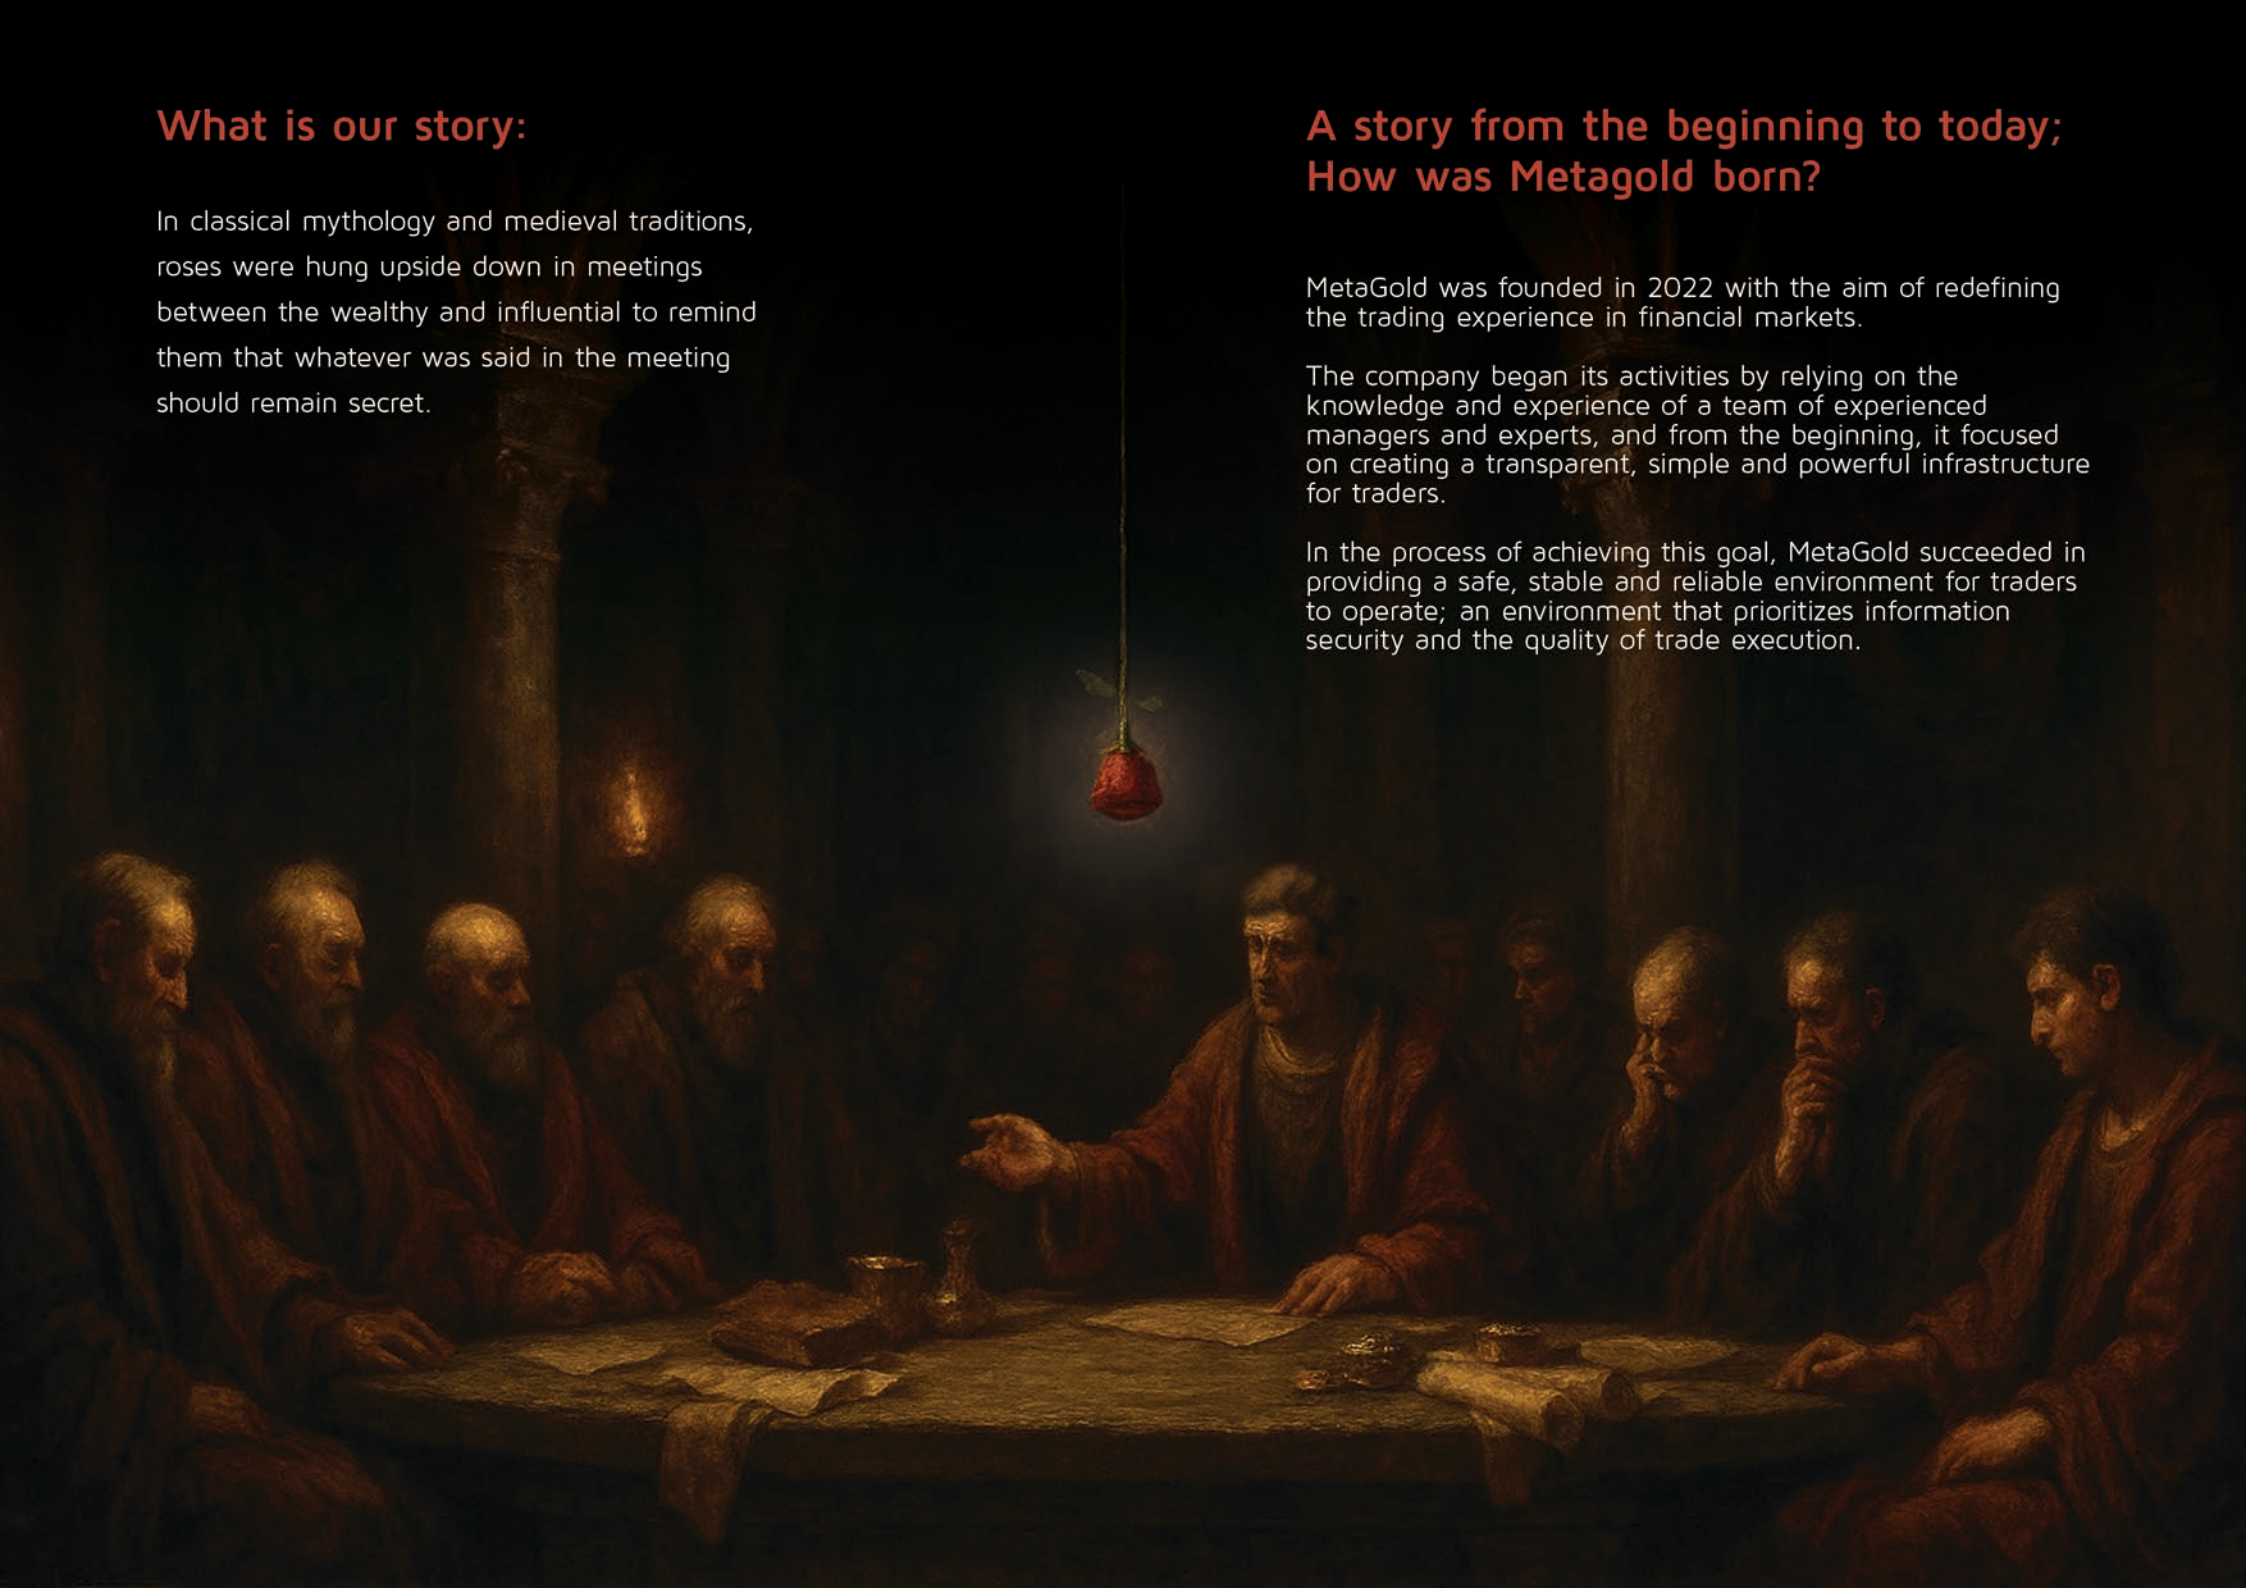

In classical mythology and medieval traditions, roses were hung upside down in meetings between the wealthy and influential to remind them that whatever was said in the meeting should remain secret.

A story from the beginning to today; How was Metagold born?

MetaGold was founded in 2022 with the aim of redefining the trading experience in financial markets.

The company began its activities by relying on the knowledge and experience of a team of experienced managers and experts, and from the beginning, it focused on creating a transparent, simple and powerful infrastructure for traders.

In the process of achieving this goal, MetaGold succeeded in providing a safe, stable and reliable environment for traders to operate; an environment that prioritizes information security and the quality of trade execution.

Why is MetaGold the best choice?

Our commitment at MetaGold is to speed and reliability in trading

When speed, stability and security come together, the result is a professional and reliable experience. We understand the value of every second in the market and we always strive to make trading faster and safer.

Wherever you are, whenever you need it, MetaGold support is with you

At MetaGold, real support is provided without time or location restrictions. Our professional team is ready to respond 24/7 and with just one click.

At MetaGold, deposits and withdrawals are processed at the fastest speed

Our financial processes are designed to be fast, accurate and hassle-free to make deposits and withdrawals a simple and smooth experience.

A variety of accounts to suit your trading path, only at MetaGold

Whether you are a beginner or a professional, you can choose an account that suits your level of experience and strategy.

Data security is our top priority

Using advanced encryption protocols, we have created a secure environment so you can trade with confidence and focus on growing your assets.

With MetaGold, global markets are just a click away

Access to over 400 diverse trading instruments in Forex, commodities, indices and cryptocurrencies is available to you to have a reliable companion at all stages of your investment.

With MetaGold, easy and integrated access is always with you

You will have a smooth and synchronized experience via desktop, mobile and web. Your information is synchronized securely and instantly across all devices.

Complete your trades without worrying about negative slippage

MetaGold technology is designed to reduce unwanted price movements so that your decisions are executed with minimal deviation.
